Portfolio

My portfolio of Python, Django, and C# projects are available at
davidnevin.net.

Relevant Experience

Founder, Developer @ Critique Wheel

May 2021 - Present // Valencia, Spain

C# ASP.NET Razor Pages web application using Entity Framework for user
management, running on a MySQL database. The application is integrated
with the Twilio Sendgrid email API for user communication and
verification. Over 30 users.

Technical Consultant @ Margate Bookie Literary Festival

June 2015 - June 2016 // Madrid, Spain

Technical and Social media consulting, taking the project from inception
to a successful outcome. 98% occupancy and a strong social media
presence to build on for 2016 and 2017.

Social Media Marketing @ Grupo Bang Bang

May 2016 - Dec 2015 // Madrid, Spain

Content creation, social media marketing, events planning, public
relations, customer relations, communications/marketing strategy,
business development.

CTO: Internet Consultancy @ Silver Apples Media Ltd.

Sep 1999 – Sep 2002 // Dublin, Ireland

Produced an interactive Educational CD-ROM series for the Dept. of
Education of Ireland. Primary tech used was Adobe Director Lingo.

Process Engineer: Microchip Fabrication @ Intel

Jan 1996 - Sept 1996 // Dublin, Ireland

I worked with Intel Ireland during my studies in Applied Physics. I
focused primarily on problem solving and process analysis and
improvement. Reduced measurement time in key lithographic processes
to increase throughput internationally.
